

45. Postponement

[illegible]

The diagram shows a horizontal sequence of blocks. The first block is a rectangle divided into 10 vertical segments. This is followed by a parenthesis containing another rectangle divided into 10 vertical segments. This is followed by another rectangle divided into 10 vertical segments. Then, there are three dots. This is followed by a rectangle divided into 10 vertical segments. A horizontal line connects this rectangle to the final rectangle on the right, which is also divided into 10 vertical segments.
