

9. Greatest Miracle

[illegible][illegible][illegible][illegible]

A diagram of a linear chromosome consisting of four rectangular segments. The first and third segments are shaded gray and each contain four vertical lines representing sister chromatids. The second and fourth segments are white and each contain eight vertical lines representing sister chromatids. The segments are connected by horizontal lines representing centromeres, with one centromere located between the first and second segments, and another between the third and fourth segments.

[illegible]
